Nursery Activities:
**Outdoor Play – TRACTOR
CLIMBING FRAME**

Activity	Hazard	Likelihood	Risk Level	Person at Risk	Control measures	Additional Measures
Falling from height (top platform)	Injury from impact (fractures, sprains)	Medium	Medium	Children	Install safety surfacing (e.g., bark, rubber matting), ensure adult supervision	Consider topping up bark to ensure soft surface is full covered
Sharp edges or splinters	Cuts, abrasions	Low	Low	Children	Sand down all surfaces, routine inspections	Varnish with non-toxic sealant to prevent weather damage
Inadequate structural stability	Collapse, entrapment	Low	Medium	Children	Risk assessed each day	Damage reported

	Likelihood that hazardous events will occur		Consequences	Risk rating	Action
1	very unlikely	1	insignificant – no injury	20-25	Stop – stop activity and take immediate action

Auchinairn Early Years Centre Health & Safety Risk Assessment

2	unlikely	2	minor – minor injuries needing first aid	15-16	Urgent action – take immediate action and stop activity if necessary, maintain existing controls rigorously
3	fairly likely	3	moderate – up to three days absence	8-12	Action – improve within specified timescale
4	likely	4	major – more than seven days absence	3-6	Monitor – look to improve at next review or if there is a significant change
5	Very likely	5	catastrophic - death	1-2	No action – no further action but ensure controls are maintained and reviewed
